

DEAR PARENTS AND STUDENTS

In line with the latest directives from the relevant authorities, MAS transitioned to distance learning from Tuesday, May 5 to Friday, May 8. We appreciate the cooperation and support of our parents, students, and staff in ensuring the continuity of learning during this period.

Our teachers remain dedicated to delivering high-quality instruction and supporting students throughout online learning. Further updates will be shared as we continue to monitor the situation closely.

To ensure a successful distance learning experience, students are encouraged to attend classes on time, follow their daily schedules, participate actively in lessons, regularly check MS Teams for updates, and maintain a quiet and organized study environment. We also encourage students to balance their studies with healthy habits, including proper rest, hydration, and short breaks throughout the day.

Thank you for your continued partnership and commitment to student success.

Success is not about where you learn, but how committed you are to learning**SAFEGUARDING TIPS:****How to act if your child is going under distress or Cyberbullying:**

If your child is going under distress, you should handle it by:

- Stay Calm & Present: Model stability; your calmness helps them regulate.
- Validate Feelings: Acknowledge their emotions ("I understand you are sad") instead of dismissing them.
- Ensure Safety & Routines: Maintain normal routines to provide comfort.
- Encourage Coping Skills: Teach breathing techniques and encourage problem-solving.
- Provide Physical Comfort: Hugs, cuddles, and physical closeness can reduce stress and increase the feel-good hormone oxytocin
- Limit Media Exposure: After a distressing event, minimize exposure to news to help children feel secure
